HAVAS

Madrid, May 4th—In spite of the prohibition of the authorities, another important working man's manifestation has been held in Barcelona; there were conflicts with the troops, several men being killed and many wounded.

Barcelona, May 4 (evening)—The strikers continue in a very excited state; in consequence of the seriousness of the situation, a state of siege has been proclaimed throughout the province of Cataluña.

Tourcoin, May 5—70,000 workmen have gone out on strike here and the movement is still spreading. Nearly all the establishments here are closed. The attitude of the strikers is a threatening one.

GALVESTON.

Barcelona, May 3rd—In spite of fear that further disturbances may take place, many men are returning to work and the authorities are confident of being able to put an end to the riots.

Madrid, May 3rd—The strikers in Valentia are persisting in their attempts to intimidate the non-unionist workmen and are trying to induce the men employed in the Government tobacco factories to leave their work, but in this they are prevented from succeeding by the civic guard.

The executive Socialist committee of Madrid have called a big meeting for to-morrow, after which they will go to the residence of the Prime Minister with a petition asking the Government to bring in an eight hours' labour bill.

Paris, May 3rd—The strike at Turcoin has become general, processions constantly parading the streets and business totally paralysed; large military reinforcements have arrived.

Barcelona, May 3rd (midnight)—The strikers were practically masters of the city yesterday; the stopped the urban railway by cutting the line: they also visited several printing-offices and obliged the compositors to leave off work; consequently no newspapers were issued yesterday. Handbills have been distributed inciting the strikers to sack the town. A troop of mounted police charged the rioters, but were forced to retire. In the evening three regiments of the line arrived, and the Governor then issued a proclamation threatening with capital punishmenn anyone guilty of intimidation; this had the effect of thoroughly frightening the crowds, who then slowly dispersed. The Anarchists are busying themselves in fomenting disturbances, and are calling meetings in different parts of the country for Sunday. The advent of a Socialist revolution is freely spoken of.

Berlin, May 4th—The *Hamburger Nachrichten* reveals what purports to be the secret history of Bismarck's resignation it states that the Emperor was influenced by the ex-Chancellor's enemies, who made him believe that Bismarck had acquired the habit of taking morphia, whereupon he consulted Dr. Schweninger. All this served to disgust Bismarck, and after the Emperor had ascertained that there was no truth in the report, some of the interested parties induced Bismarck to imagine that the Emperor had resolved to get rid of him. The same paper promises to shortly reveal the authors of this intrigue. The article gives the impression that Bismarck is willing to renew his former close association with the Emperor.

London, 4th.—Boulanger states that for the present he has no intention of returning to France.

London, 5th.—The working men's manifestation in Hyde Park yesterday was splendid; in point of numbers and enthusiasm it excelled all meetings since the Reform agitation in 1866. Half a million of men, splendidly organised, met, and at 3 p.m. the gigantic procession started amidst thunderirg cheers and the music of innumerable bands; Michael Davitt, Cunninghame Graham and John Burns were amongst the speakers.

Berlin, May 5th.—There is ground to believe that official communications for a reconciliation are being exchanged between France and Germany; the propositions made by Germany were suggested by the Emperor; this was indicated by him in the course of a recent conversation with Jules Simon. Carnot will do everything in his power to facilitate the settlement, the restoration of Alsace and Lorraine being the dream of his life.

It is officially announced that the Emperor will visit the Czar during the summer.

RIOTS IN SAN LUIS.

THE JUDGE MORTALLY WOUNDED.

San Luis, 5th—On the occasion of the election of a deputy, disturbances broke out here yesterday. The opposition voters had mustered in strong numbers and it was evident from the outset that very little would be required to cause a collision with the authorities. The election had hardly begun when the police interfered, a row ensued and Judge Coello was mortally wounded.

OPENING OF THE EXHIBITION.

The official opening of the International Rural Exhibition took place on Sunday shortly after one o'clock, and the crowds that gathered to witness the ceremony and visit the pavilions afforded a flattering tribute to the Rural Society. People appear to be anxious to measure the country's resources, not by the fluctuations of stocks on the Bolsa, but by the fruits of honest labor, which, thanks to the Rural Society, and to the energy, activity and ability of the committee of management, are ranged in order in neatly constructed pavilions now open to the public. As Minister Zavalia remarked in his speech, the Rural Society, in the midst of the present crisis, have chosen a very opportune moment to display in their true light the resources of the country, and all will readily agree with the Minister that this is the proper moment to contemplate the bright side of the picture.

It would take a month to visit, and several columns of a paper to describe all the exhibits. To judge by what we saw on Sunday, the industry of Buenos Aires and the country in general has grown tremendously, while the improvements effected in agriculture and farming are simply phenomenal. Twenty years ago, the Rural Society held an exhibition which may be regarded as the starting point of the progress we see to-day culminating. Another was held in 1875. Eighteen cows, seventy-nine horses and three agricultural machines were exhibited. To-day, the number of cows exhibited is over four hundred, while the horse section is one of the most attractive features of the Exhibition. As for agricultural machines, the number exhibited is quite bewildering There are machines from every nation. Eighty-five persons exhibited in 1875. The number of exhibitors to-day is nearly five hundred. In fact, the Argentine Republic of to-day has grown so fast that it is difficult to believe so much progress could be realised in so short a time. But we must reserve for another issue an account of the exhibits, and confine our remarks to a brief description of the inauguration.

From an early hour carriages began to crowd round the entrances, both in the Calle Santa Fe and the Avenida Sarmiento. The troops, under the command of Colonel L. Bernal, were drawn up in the first-mentioned street and went through a series of evolutions which attracted immense crowds. At one p.m. it was known that the President, owing to ill-health, could not assist. His Excellency deputed Minister Zavalia to represent him, and the official party, comprising ministers, generals, diplomats, consuls, deputies, editors, etc., soon made their appearance. Unfortunately, although the day was fine, a sharp north-easter was blowing, raising clouds of dust and blowing off hats with unpleasant frequency. The party entered the inauguration pavilion, where every seat was occupied by the principal ladies of Buenos Ayres, and Furlotti's band immediately played the National Hymn. The spectacle was a most imposing one. Ex-minister Zeballos, President of the Rural Society, then read the inaugural speech, the only fault of which was its extreme length. He dwelt on the splendid picture of the country's resources, shewed the importance of our cattle and agricultural industries, and made some happy allusions which elicited much applause.

Minister Zavalia, on behalf of the President of the Republic, replied. He shewed how opportune the moment was for holding this exhibition. The Rural Society had, with patriotism, drawn the attention of the people from the contemplation of the ravages of the crisis to the pleasing spectacle of the country's genuine resources. We could now form an idea of our strength, and we should feel grateful to a bountiful nature, which had so richly endowed our soil. All we needed was to settle in distant camps and cultivate the fertile soil. Settlements were now stretching in every direction, and cattle were peacefully grazing on the furthest frontiers of the Republic. Agriculture too was advancing rapidly and seizing lands situated near our rivers and railways.

He concluded by congratulating the Rural Society.

On the conclusion of this ceremony, and with Dr. Zeballos as our cicerone, we hurried through the pavilions, merely glancing at their treasures which, as already stated, it would take a month to visit and examine properly. The agricultural section, a most imposing structure, the machinery department, and the minor pavilions, we purpose describing in separate chapters. What most attracted our attention was the beauty and number of the horses trotted out. We have never seen finer animals, even outside the Republic. The race horses, the Clydesdale stallions, the ponies, all are magnificent animals, and we recommend our readers to visit the exhibition and examine the stables. There were at least four thousand visitors on Sunday, and the avenues were thronged. There can be no doubt the exhibition is a splendid success. It will revive confidence by shewing what the true strength of the country is.

While congratulating the Rural Society on the great success of the Exhibition, we cannot close this brief report without complimenting Mr. Carlos Lix Klett, whose activity and energy are stamped in every pavilion. Mr. Lix Klett, to whom much of the success of the Argentine Pavilion in the Paris Exhibition is due, has spared no effort which his energy and experience could suggest, to arrange the exhibits in the most perfect order, and thus attract the public eye.

SUNDAY'S RACING.

The meeting in Belgrano commenced in very quiet fashion, only 27 turning out for the first four races, all of which were easily carried off by the respective favourites. A great improvement was evinced both in numbers and class for the Premio Luchadores, which furnished a very pretty race. A hundred yards from home, long odds would have been laid on Avril, who had succeeded in collaring Oliver, but, running very gamely, and being admirably ridden, the moderate son of Silvester was enabled to outstay Avril whose jockey was physically unable to render him the slightest assistance; we have repeatedly had occasion to note that this jockey (Diaz, the hunchback) is no use in a close finish and that the only way he can win races is by nursing his mount and coming with one run near the post. Last year he acquired a cheap reputation very easily, having had the luck to get some good mounts in important races, but the result of this event must convince everybody that, when it comes to a ding-dong finish, physical ability is worth more than "head."

No less than 18 horses faced the starter for the Premio Relampago, but this number was subsequently reduced by the defection of Charlatan after he had bolted four times. Previously to this, some half dozen of the boys, imagining that the flag had fallen, had a race to themselves, the extreme outsider, Camila, coming in first. When an actual start was made, it proved to be a very bad one, Holyrood and Nogal getting a tremendous lead; in spite of this advantage, however, Solomon would have won but for being shut in for nearly the whole distance. When, at length, he got an opening, he made up ground so rapidly as to conclusively prove that his backers were unlucky to lose. We trust that on another occasion this good horse will have better fortune.

Surely, the Hipodrome and the Railway Company should come to some better understanding; the first race on Sunday was fixed for 1 p.m., whilst the first of the "specials" was timed to leave the Central Station at 12.35; the result was that upon the arrival of the passengers by this train, they found the ticket-office closed and the race about to start; this was, of course, a clear loss to the Hippodrome and a disappointment to the public. The management at this course is so good that we feel sure we have only to point out this inconvenience to ensure its removal.

LONDON LETTER

GOSSIP.

(From our own Correspondent.)

March 28.

A telegram from Berlin says:—"The disclosures caused by the arrest of Frau Oberhautmann Heuser for gross immorality is exciting all official and fashionable Berlin. Frau Heuser, who is the wife of a leading municipal official, has for some time been giving a series of receptions at her mansion in the Friedrich-strasse which were really orgies of an Oriental character. She was assisted by her handsome daughter, and among her constant visitors were members of the highest nobility, Court and city officials, officers of the army and other persons of distinction. Pretty girls of good family were invited by Frau Heuser, and in many instances lured to their ruin. Heavy bail was given for Frau Heuser by a high official, and now she has succeeded in escaping from the jurisdiction of the courts. The daughter has been arrested and persuaded into making a confession, her evidence being taken *in camera*, so as to screen the names of certain persons of rank."

The splendid summer weather has put the Stock Exchange in good humour today. Cedulas have gone up 1 to 1½, and all Argentine securities have improved in consequence of the communication from the Argentine Government. The market in general is firmer. People seem all in sporting humour. The Oxford and Cambridge Boat Race was run in the first really fine day of the spring of 1890. The crowd was enormous. Oxford, as you will know, won pluckily by a length, although at starting the betting was 5 to 2 upon Cambridge. There was grand weather, too, for the Lincoln Handicap, and although it poured yesterday at Liverpool the racing was very fine; and to-day, if London is any criterion, the day must have been magnificent. We have no details, but we see that Ilex won the Grand National, Pau 2 and M. P. 3. Ilex seems to have taken the lead at once and kept it, winning in a canter. Sixteen ran. The betting on starting was 4 to 2 on Ilex, which was one of the favourites, although many fancied M. P. and Why Not. The usual party at Croxteth Hall was prevented from assembling, as the Earl of Sefton is ill. The Prince of Wales is still at Berlin. He intended to be at Aintree, as he had a horse running there, and generally stays with Lord Sefton in the race week.

The disappearance of young Englishmen in Canada is growing a serious question. Two other young men, named respectively Rawlings and Begbie, are missing. They are known to have gone out to "learn farming," and Begbie was seen in a lonely half-cultivated farm, where he had lost what money he put into it and had to live and work with the common laborers, instead of, as it was represented to him by "English agencies," coining money in fruit farms near Niagara. The conduct of the agencies will certainly be investigated. It is now thought that the human skeletons which are dug up from time to time in Canada are those of young Englishmen of good family who have been lured to the place, deceived, then robbed and finally murdered.

The *Pall Mall Gazette* may talk about it and the *Daily Telegraph* may follow suit, but I did it. I went and got shaved. I was shaved by a woman, 65 Chancery-lane, that is the address. The "Don Hair Cutting Saloon." From the street you descend a staircase into an underground room plainly but comfortably furnished. You walk in with an unconcerned air as if you had been shaved by a woman all your life. There are several gentlemen seated in the saloon waiting for their turn and apparently intent upon their newspapers, but they could not conceal a certain sheepish expression, while endeavoring to conceal the fact that they were all on the same errand. "Shaving by women." By Jove, I'll go. At the bar was a young lady who was entertaining two youths with lilies of the valley in their coat button-holes. She was trying to dispose of flowers, scents and pomades. Other young ladies dressed in black, with snow-white caps and aprons, were lathering men's chins, oiling and cutting their hair, Animated by a strong personal interest, we squint over our news sheets and critically watch each operation. The female operators seemed to be careful in their work, but they took an intolerably long time about it. Only the determination not to forego the pleasure of a first experiment kept some of us from taking up our hats and leaving. As far as I could judge, the shaving was more successful than the hair cutting. One missed the loud snip of the scissors of the male operator. The silence of the process under female hands was disagreeably impressive. The girls seemed to use the scissors as if they were cutting velvet pile, as ladies do in some kind of fancy work. The result was similar; for if a man's poll be variegated in color by greyness, baldness and dyes, his head after the operation shows a distinct pattern. The shaving process seemed better. One very handsome young man lay with his head on the rest in a kind of swoon, his eyes shut and in an apparent state of ecstacy. Now and again, as the operator looked for a neglected patch, a chubby little mouth approached pleasantly near to a brown moustache.

At last one of the patients was released. "I think, sir," said a very nice gentleman sitting next to me, "it is your turn." "Oh, pray," etc., etc. You see, I had a fancy for the other girl, and when the brown moustache was quite finished I sat myself in the vacant chair, and, I must confess—it is very foolish, but I did feel a sort of all-overishness. The tucking down of the napkin was delectable; and the delicate feel of the shaving brush and an occasional touch seemed new sensations. It was the novelty of the thing; that is all. When I got up after she had bay-rummed me and powdered me and brushed me I paid my twopence with an air of independent feeling and didn't care a dab of the brush whether I were shaved to-morrow by male or female. If the girls will be only a little quicker over it the innovation will succeed. In course of time we shall be measured for our clothes by lady tailors. It will be far more agreeable to hear their pretty voices—"Waistcoat 39, girth 43. You like them longish, sir?" "Please; and let them come well over the boots." To the philosopher the question arises: What will be the result of this greed for novelty in a competitive system, which, as in the case of capital, is self-destroying? For if women can shave, why should we pay twopence ont of the family when we can be shaved by our wives for nothing? It is understood that under a new and higher moral regime we shall be on sufficiently good terms with our wives to submit our throats to their mercies.

There is terrible news of floods and cyclones in America, which seems a lively place to live in, where rivers engulph cities and winds take you up bodily, house and all, and deposit you in the "roaring torrent of the Ohio." See particulars enclosed.

THE STORM IN MONTEVIDEO.

(From the R. P. Times.)

After some three weeks of an uncomfortable north wind and of unseasonably warm and close weather, the winter season has made its unmistakable appearance in a storm of exceptional violence. The first four days of the week were warm and wet, but on Thursday evening the wind changed and commenced to blow from the south and southwest, and soon acquired terrific violence. Although the direction shifted several times during the night and morning, the force scarcely varied, and it was not until after midday that it calmed down somewhat, although from appearances at the time of writing the rough weather was by no means at an end.

Old hands say that so severe and disastrous a storm has not been felt here since 1866.

On shore the damage has been comparative small, the following being the most important casualties of which we have heard. The canvas circus at the corner of Ibicuy and General Rondeau has been completely wrecked, though a similar erection in the Cerro escaped. In Calle 9 de Abril, 6th section, a small cottage was blown down, burying an old negress, who lived there, in the ruins. The roof has been blown off the stables at the corner of 18 de Julio and Sierra, the zinc sheets being carried to a great distance. The roof of the house Rivera 330 was blown in. An unoccupied house in the Barrio Nuevo Genova was blown completely down, but its occupied neighbour was uninjured. The bathing establishments at the Playas Ramirez and Pocitos and elsewhere on the coast have been seriously injured by the force of the waves as well as by the wind. In several places walls have been blown down and roofs injured, and broken doors and shattered windows are general throughout the city and suburbs. The trees in the boulevards and the telephone posts in many parts have suffered severely, and telephonic communication was interrupted very generally. Great damage was also done to the plants and trees in the "quintas" in the suburbs.

But the worst disasters, as might be expected, were those in and around the port, where the mischief has, indeed, been terrible. Of these it is impossible to give many details, for the danger still continues; nor can the full extent of what has occurred be known for some time yet. The following are the principal facts that have come to our knowledge up to a late hour yesterday afternoon. In many cases it is impossible at present to give the names of the vessels concerned:—

The Brazilian man-of war Trajano was in imminent danger throughout the morning, her engines not working and having dragged her anchor. The steam tugs Emperor and Plata went to her aid, but could do little, on account of the heavy sea running. For a long time it was feared she would run ashore off the Gounouilhon baths, but a shift in the wind saved her, and we understand she has been placed out of danger. The three-mast Norwegian ship Wenonah was driven ashore off these baths, and it is feared is severely injured. Especially critical was the position of the German steamer Corrientes, which struck on the Tepe rock four days ago. The storm caused her to shift and it soon became evident she was sinking fast. There were on board a crew of thirty and over forty stevedores who had been helping to unload her. After passing a night of terrible anxiety, they were rescued, not without great difficulty, by the steam tugs Emperor and Plata, and landed in safety. The Corrientes is now quite abandoned and will become a total wreck. Great anxiety was felt respecting the river steamers Venus, Olimpo and Golondrina which left Buenos Aires for this port on Thursday evening. The Olimpo was not sighted until late in the afternoon, when news was also received of the safety of the others. A small steamer belonging to the Western Railway Company has been driven ashore and wrecked in the bay.

On all sides of the coast, sailing vessels of different sizes and nationalities were noticed in danger, dragging their anchors, threatening to run aground, or giving signals of distress. At present, it is impossible to give any account of the number or name or fate of these. Up to the time of writing we have not heard of any loss of life, though several sailors have been severely injured in various ways, but it is hardly expected that so violent a storm will not have claimed its victims. From an early hour the corners of the city, especially that part near the National Hotel and Baths, were crowded with persons braving the inconveniences of wind and spray, who watched with eager interest the scenes unfolding in the bay and roads.

Although the fury of the storm passed on Friday, the wind continued to blow with violence all Friday night and yesterday morning, making navigation in the port dangerous, and preventing much assistance being given to the many vessels that had been driven ashore, or were otherwise in difficulties. It is now possible to give a clearer account of the extent of the disasters caused to shipping. A contemporary estimates that 3 steamers and 4 sailing vessels are completely wrecked, whilst 14 vessels of various kinds have been driven shore at the Aguada. This estimate, we think, will be found considerably below the mark. To the details given yesterday we may now add the following: The passengers from B. Aires by the Venus, Golondrina and Olimpo were not landed until yesterday morning, having passed a terrible time on board. There were several ladies amongst them. The fine Norwegian ship Wenonah, on shore by the National Hotel is likely to prove a total wreck, her side being partly stove in. She is firmly embedded on the rocks in about 6 ft. of water, and is already heeling over. The steamer Corrientes is now a total wreck, and is more than half under water. The Norwegian barks Freya and Elias have been towed to safe anchorage, having lost their mast and rigging. The Norwegian bk. La Plata was run down and sunk by the steamer Chaucer, all hands saved. According to the *Dia* no less than 200 smaller vessels and boats have been destroyed or sunk by the storm; of course it is impossible to give the names of all, or any part of these.

Just tribute must be paid to the house of Lussich Brothers, who have added one more to their long list of valiant deeds by their conduct on this occasion. From the commencement of the danger their steamtugs the Emperor Plata, Solis and Uruguay, were in active service, their crew working like true heroes, in the midst of the greatest danger, to rescue life and render such assistance as was possible, though, owing to the multitude of signals of distress, it was evidently impossible for them to do one tithe of what was necessay. It is calculated that over 150 sailors have been saved by them alone, besides many valuable vessels placed in safety. The loss to shipping is roughly calculated at over half a million dollars.

Further accounts have reached us of damages on land to houses and property in the city and suburbs, but none of striking importance.

So far, it is pleasing to note, there is no knowledge of any loss of life or serious personal injury.

Railway Items.

The Board of Public Works are now taking the Argentine Great Western in hands. A letter was sent to the manager yesterday, enclosing a long list of improvements that are to be carried out immediately, amongst others the dredging of the Tarigin Canal, enlargement of the San Luis Station, addition of a ticket and parcels room to the Villa Mercedes Station, alter the brakes on 40 per cent of the rolling-stock, build auxiliary lines at Fraguay, Desaguadero, Junuyan, Santa Rosa, Alto Verde, Rivadavia, Jocoli, Ramblon, Cañada de Gomez and Pocitos. Besides which there are sundry directions for running of trains in combination with the Pacific Railway, so as to avoid an accumulation of traffic.

The Northern Tramway of Rosario carried 227,000 passengers last month.

The Board of Public Works have ordered the Buenos Ayres and Rosario Railway to build barriers at once at all level crossings on their line. The frequency of accidents at these crossings is at last beginning to awaken the attention of the authorities.

We congratulate Mr. Louis Cilley on his promotion to the post of Gefe de Guepo on the Trenquelauquen Railway. The nomination was made by Governor Costa.

The proposal by Engineer Baigorri to survey 1,500,000 hectares of land in the Chubut, section H 2 and the half of section H 3, has been approved by the Government, who have arranged to pay 6 centavos per hectare for the work.

The Government have authorized the Department of Public Works to carry out the contract with Messrs. Villafañe and Co. with reference to the concession granted to this firm for the construction of a harbour of refuge in the Mercedes and the opening up of a navigable canal.

The contract between the Board of Public Works and the F.C. Central Sud-Americano Company for the construction and exploitation of the line from Reconquista to Formosa has also been approved.

The plans presented by the F. C. Pobladores for a deviation from the Belgrano to Las Conchas line, between kilometres 8 and 11, have also been approved, as have also the plans presented by the F. C. Pacifico for the planometry and longitudinal outline of the line from Pergamino to Junin (F. C. de la Provincia), modified between kilometres 22 and 24 by crossing the Pacific line at a given point near Junin.

The F. C. Villa Maria á Rafino has been authorised to try as an experiment five waggons with tubercular platforms recently received from North America.

The Pacific Railway Company have been authorized to increase their passenger and freight traffic by 30 per cent; this, with the increase authorized in January last, is a total increase of 50 per cent.

The Government have resolved to create an inspecting board of Sanitation (a sub-department of the Board of Public Works) which will fulfil the duties imposed by law on the late "Comision de Obras de Salubridad". The "personnel" is as follows: inspector-general Engineer J. F. Sarty with a salary of 500 dollars per month; sub-inspector, engineer T. Dellepiane with 400 dollars; for technical service, first-class engineer, Juan Raffo with 350 dollars; second-class engineers, Gmo. Wheeler and A. Bernard with 250 dollars; keeper of the records, Jose Victorica with 100 dollars. The inspector-general will have full power of control over the sub department.

The gross receipts of the B. Ayres and Rosario Railway for 1889, according to the last report of the directors show an increase of £96,799, or 21 per cent. This is on the same mileage as in 1888, and it may be mentioned that, whereas the currency depreciation reduced the paper 44½ o/o, there was only an increase of 15 o/o in the tariff all the year up to November, and then another 15 o/o was tacked on at the tail end of the year. Another 30 o/o has been put on and will be so kept so long as the premium is 120 or upwards. With results such as accrued in 1889 from an increase of 15 o/o to the tariff, some idea may be had of what can be got out of the increase of 60 o/o now in force. A good rattling increase in the tariff like this seems a better plan than the weekly sliding scale of the Southern line. The working expenses show an increase of £60,422, or 27 o/o, leaving a net increase of £36,366, or 16 o/o, in the net receipts. As we recorded last week the further dividend now payable is 3½ o/o on the ordinary stock, and a bonus of 2 o/o—the same as this time last year—with £25,000 carried to the reserve fund against £15,000. The dividend for the whole year is 9 o/o, the same as in 1888, with £20,330 carried forward against £11,493. The Directors deem these results "specially satisfactory," and it is not a misnomer. There was an increase of 440,000 in the number of passengers carried, and the cash increase from this source of revenue was £43,000. Some 550,000 tons of goods were carried against 378,000.

EDITOR'S TABLE.

The opening of the Exhibition on Sunday was a great success. Everybody who is anybody was there inside the building, and all the world and his wife were outside. We give full particulars in another column.

The day for giving the collective wisdom together to hear the Presidential Message is not fixed yet. President Juarez is still unwell, but will probably be able to bear the fatigue of the ceremony before the week closes.

There was no news of interest from the Oriental side of river yesterday. The monster political meeting in Montevideo on Sunday passed off without any broken heads, though the torrents of eloquence were enough to sweep the town away.

We hear from an eminent medical friend that influenza is about again. Dry champagne is no remedy for the relapse, we are sorry to say.

We feel impelled, without any request to do so, to call the attention of philanthropic athletes to the advertisement of "W. W." in another column. "Ambition is the vice of noble minds," and the intended "champion of the world" seems to be addicted to it. Athleticism has now superseded aestheticism as the craze of the day, and seems to have spread to this republic. "W. W." does not state to what championship he aspires, but, no doubt, in the pride of strength, he is willing to fly at any game.

The largest gathering of English-speaking Catholics perhaps ever assembled in this city met at the Passionist Fathers' new convent in Calle Caridad on Sunday to witness the solemn ceremony of laying the foundation stone of the fine Gothic church. Father Edmund preached an eloquent sermon, urging each and

Soberbio Remate
De 33 Legnas kilometricas
O sean 82,500 hectareas de magnificos
CAMPOS
En la seccion IX de los Territorios Nacionales, divididos en 10 lotes, situados en las fracciones A, B y C.
El lote No. 4 que vendemos de esta ultima fraccion, linda con el pueblo General Acha, a donde muy pronto llegará el Ferro Carril (concesion Abreu) que arranca de Bahia Blanca.
Estos campos reconocen un gravamen hipotecario de 140,000 pesos en cedulas nacionales Serie A, distribuidos en lotes como se verá mas abajo y que representan $1.70 cts. por hectarea.
Base para la venta 3 pesos hectarea.
El Viernes, 16 de Mayo
A las 2 de la tarde
Remataremos por orden terminante de su propietario siempre que exceda de la infima base establecida las 82,500 hectareas del campo arriba mencionado, en lotes como sigue:—

Fraccion A, lote 4,	10,000	hetsc	on	17,000 cód
" " "	7, 10,000	"	"	17,000 "
" " "	14, 10,000	"	"	17,000 "
" " "	5, 5,000	"	"	8,500 "
" " "	3, 5,000	"	"	8,500 "
" " "	13, 2,500	"	"	4,000 "
" B	2, 10,000	"	"	17,000 "
" " "	10, 10,000	"	"	17,000 "
" " "	11, 10,000	"	"	17,000 "
" C	4, 10,000	"	"	17,000 "

Una de las mejores referencias que podemos hacer de estos campos es que en los lotes que ofrecemos en venta han estado establecidas las tolderias de "Utracan", "Chilelen" "Malal-Huaco", "Quehué", "Treua Lafquen," "Laguna de la Gama" y otras como puede verse en los planos.
La proximidad de estos campos al Pueblo General Acha donde muy pronto llegará la via ferrea el gravamen hipotecario que excede en mas de un 50 ojo la base establecida para la venta y la orden terminante que tenemos de vender exceidendo esta á pesar de ser tan infima; nos hace llamar la atencion de los Estancieros, agricultores y cuantos quieran invertir bien sus ahorros, lo coloquen en estos campos, en la seguridad de que dentro de muy poco tiempo tan pronto como se inaugure la linea ferrea habian multiplicado su capital.
Si á esto se agrega la desvalorizacion de la moneda por la alta cotizacion del metalico se comprenderá que no puede darsele mas acertada colocacion.
Como de costumbre el comprador que se haga cargo de la hipoteca, tomará los cedulas a precio de Bolsa y estilo de plaza el dia antes de la escrituracion abonando el excedente al contado.
En el acto de firmar el boleto abonará el 5 ojo sobre el importe total de su compra.
Por planos y mas datos ocurrir á nuestra casa Alsina 480 y 482.

It is quite evident that the fortnight's list shews a very large balance in favour of the country.

On Saturday the trains ran for the first time on the branch of the Western Railway into the Mercado Central de Frutos on the Riachuelo. It is certainly about time, and we have to congratulate the president of the company on the event, as but for his unceasing labours it is probable that another six months would run over without the lines into the market being finished. Let us now hope that this grand enterprise will receive a fair start and that the lucky shareholders will begin to earn for their dividend. This market is one of the greatest enterprises in the Plate, and, when in full swing, they say will beat the Catalinas.

To-day's advices from the South were very gloomy. The storm has caused tremendous damage in the flocks in some partidos, from Las Flores to La Colonia especially. From the windows of the railway wagons passengers could see thousands upon thousands of dead sheep lying in the camp. The great losses were occasioned by the sudden inundations that covered leagues of land. In some parts the "puestos" had a yard of water inside. Some people got out of their houses with water up to the waist. The floods came suddenly and covered the fencing posts in various parts. Whole flocks were drowned. The principal losses and floods are between La Tigra and Rocha. A cargo train of the Southern railway sank into the mud between these stations last week and interrupted traffic for several hours.

The Custom House returns to-day were :—

	$
Imports	127,163.56
Exports	155 70
Bills	11,082 90
Total	138,402.16

Discounts are reported still most difficult, and only the National Bank discounts with liberality. Commercial paper is quoted at 11 to 12 o/o and accommodation paper 12 to 15 o/o.

From Tuyu the sale is reported of 10,000 salted novillo hides, 27½ kilos on an average, at 13.15 gold the 100 kilos. The Lauro "saladero" is hard at work, killing from 500 to 600 head daily. The Bahia Blanca "saladero" has not yet got to work.

Mr. de Bary, of Tornquist and Co., was welcomed on Thursday to day on his return from Tucuman.

Messrs. Lorthiois have chartered the s.s. Cambridge to load 50,367 bags of wheat in Rosario for San Vicente f.o.

Matters were quieter at the second hour, and though the rate oscillated between 218 and 214 50, there was much less excitement and more faith in the fall. At the close, the rate stood at 215.50, though there were buyers later at 216. Stocks all contrived to keep up, Catalinas closing at 44, Constructors at 42 50 and National Bank Shares at 153.50. Cedulas were also steady, though perhaps a trifle weaker, owing to the stiffening in gold. The volume of business done was below the average.

The following is a summary of operations effected this evening at the second ring:—

The Royal Mail packet s.s. Tamar left Rio on Saturday for the Plate.

The s.s. Zenobia arrived on Saturday in Montevideo with 200 tons of cargo for that port, 1130 tons for Buenos Aires and 500 tons for Campana; correspondence per river steamer.

Mr W. Morgan was welcomed to-day on his arrival from Bahia Blanca. He reports the mortality of sheep between Azul and La Tigra as something terrible, the wires of the railway fence being white with the carcases of the sheep which had perished in a vain attempt to flee before the rising waters. Whole flocks perished. Mr. Morgan has opened a stall in the Rural Exhibition for his far-famed tongues and corned beef.

Mr. Julio Costa, the new Governor of the Province, in naming his Ministers and Presidents of the two State banks, has selected gentlemen, not only of high standing in the party, but, what is still more important, of repute in the market. Mr. E. Portela takes the Government portfolio, Mr. Aldao Finance, and Mr. Luis Garcia public works; the president of the Provincial Mortgage Bank will be Mr. Toso, ex-finance minister, the president of the Provincial Bank Mr. Albert Casares, and the manager of the Buenos Aires branch Mr. Mariano Marenco. Then comes the appointment of Mr. Julio Panthon to the chairmanship of the railway board, a post that will soon be a sinecure. Dr. Juliau del Campo becomes secretary of the bank and Mr. Raul Harilaos, Mayor of La Plata. These are the nominations as known up to the present.

The "tape" ran off the news this morning before office hours that the Banco Nacional was drawing for the packet Napoli of the 14th at 47¾, 5.01 francs Paris and Belgium and 4.05 marks Germany, taking paper for gold at the market rate. The Provincial Bank draws at 47¼d and 5.02 francs, but takes gold only.

A telegram received from Montevideo this morning announces the sailing of the s.s. Nord America for Genoa with 1250 passengers.

The s.s. Duca di Galliera left Genoa on Saturday for the Plate with 550 passengers and 1250 tons cargo.

The immigration returns for April, which have just made their appearance, shew that the dwindling still goes on. The total number of immigrants arrived is only 13,203, and against this must be set off the number of departures, which shews a steady increase, summing up to 6812 thus leaving a meagre balance of 6481. As the causes of this falling off are only too well known, it would be waste of time to recapitulate them; there remains, however, the improvement in affairs generally to give room for hoping that the returns will soon shew signs of mending.

According to advices received in the Public Lands Office, Dr. Basabilbaso's mission in Europe is a complete fiasco. This had been foreseen, and consequently will cause no surprise or disappointment in the market. The idea of selling in Europe such a vast lot of land, unknown even here, was a delusion at the best, and could scarcely have merited a moment's consideration but for the upside-down state of the market, which gave rise to the most fantastic theories and forlorn-hope remedies. Undoubtedly much of the land will in reasonable time be most valuable, but this is not to be expected if it is intended as an investment for idle capital.

ABSOLUTELY PURE

This mild, mellow and delicious Whiskey is distilled from the finest growth of carefully selected Rye grain and Barley malt. It is a marvel of wholesomeness, excellence and evenness of quality, unequalled by any Whiskey in the market. It is bottled in bond for export only, is entirely free from fusil oil, possesses a natural flavor and fine tonic properties, suited exactly for the use of invalids and weak and sickly persons. It is cooling, refreshing and strengthening so pure, smooth and ripe, and agreeable to the palate as to invite the attention of connoisseurs.
